

ATLANTA HOME MODIFICATIONS

Accessibility Design for Independent Living

Do you work with people facing mobility challenges due to a physical disability?

Atlanta Home Modifications, LLC specializes in custom home remodel design for people with physical disabilities or illness.

People in recovery or those learning to cope with a disability often find stairways, old bath fixtures, or tight spaces to be major obstacles. When physical obstacles are removed, recovery time usually improves, and the risk of re-injury is reduced. Everyone benefits from improved safety and comfort in the home!

- **Architectural design according to ADA specifications**
- **In-home assessment and education for your clients about necessary modifications**
- **Coordination and oversight of subcontractors, installation, and project details**
- **CAPS Certified Aging-In-Place Specialist**
